

The new leader in bone regeneration.

RIEMSER

Learn The Latest Bone Grafting and Pre-Implant Techniques

Leading clinicians will train you through lecture and models to:

- Understand site preservation and the importance of grafting sockets to preserve ridge
- Interpret clinical and scientific data about bone grafting materials and methods
- Use various grafting materials in hands-on sessions

Study with the best. And earn CE credits (AGD) at the same time.

Clinicians teaching these workshops around the country include:

Dr. Russ Baer

Dr. Nilo Hernandez

Dr. Jay Baxley

Dr. Robert Horowitz

Dr. Paraon DeQuiroz

Dr. Brian Kerr

Dr. Todd Engel

Dr. Timothy Kosinski

Dr. Michael Giesy

Dr. Fred Thompson

Find a workshop in a city near you: Atlanta, Charlotte, Detroit, Irvine, Louisville, New York, Sacramento, Tampa, and more.
