

Main Topics

- Anatomic Considerations
- Implant Treatment Planning
Indications and Contra Indications
Bone Evaluation
- Radiology Planning for Dental Implants
- Bone Augmentation and Guided Tissue
Regeneration
Resorbable vs. Non-Resorbable Membranes
Lateral and Vertical Ridge Augmentation
- Residual Ridge Widening and Splitting
- Immediate Implantation and Immediate
Loading of Dental Implants
- Maxillary Sinus Bone Grafting Open and
Closed Techniques
- Soft Tissue Considerations and Suturing
Techniques
- Free and Connective Gingival Graft for
Different Periodontal and Implant Procedures
- Biomechanical aspects of immediate loading
- Critical literature review
- Protocols, criteria and indications for
immediate loading
- Provisional restorations associated with
immediate loading
- Immediate implantation with immediate
loading
- Minimally Invasive/ Flapless Implant Surgery
- Immediate loading in: single, partial and
complete edentulism
- Computer assisted Implantology

CEOI Introduces Five Types of Hands-On Surgical Courses:

1. **Implants for the beginner - concentrating on step by step Implant placement.**
Each participant places 10-12 Implants and actively participates in additional procedures.
2. **Advanced grafting and sinus elevations for the experienced surgeon.**
Each participant performs at least two open sinus augmentation procedures and actively participates in additional procedures.
3. **Soft tissue management associated with dental implants.**
4. **Immediate loading- learn and perform immediate loading in two different indications.**
5. **Custom tailored course according to the participant's needs.**

Continuing Education in Oral Implantology

*Under the Auspices of the
University of Belgrade Serbia*

Unique Hands On Live Patient Courses in Dental Implantology

Next
Available Dates:
Oct 29th - Nov 2nd 2008
April 22nd-25th 2009
July 1st-4th 2009
October 28th-31st 2009

About Us

Dental Implants have become a major part in our dental practice.

More and more patients as well as clinicians seek a fixed or stable implant prosthesis giving our patients a functional and esthetic solution for their needs.

There are numerous implant hands-on courses for clinicians focusing on model training or sometimes a cadaver workshop trying to simulate the human oral cavity.

Occasionally lack of experience makes the transformation of the surgical techniques to our patients difficult.

For the first time the international course for oral implantology allows the clinician to perform on patients a variety of dental implant surgical procedures including sinus augmentations and immediate loading procedures in cases with single, partial and complete edentulism. All of the above will be performed under the close supervision of some of the leading well experienced clinicians:

Dr. Ziv Mazor, Dr. Adi Lorean, Dr. Eitan Mijiritsky, Dr. Marius Steigmann & Prof. Voya Lekovic.

The program allows one-on-one interaction between the participant and the instructor. In the Implant beginner course each participant places at least 10-12 Implants and participates in additional surgical procedures.

In the advanced grafting course each participant performs at least two open sinus augmentations and participates in other surgical augmentation procedures. A custom tailored programs can be designed according to the participant's needs.

The program includes utilization of innovative state of the art techniques, materials and surgical tools.

The course takes place in the university of Belgrade. Participants will receive their certificates from the university upon completion of the course.

Come Learn From...

Ziv Mazor, DMD

Dr. Mazor is a leading Israeli Periodontist graduated from Hadassah school for dental medicine - Jerusalem Israel where he served as clinical instructor and lecturer for undergraduate and postgraduate dental students.

Dr. Mazor maintains private practice limited to periodontal and implant dentistry in Raanana, Israel. Since 1993 Dr. Mazor is engaged in clinical research in the field of Bone Augmentation and Sinus Floor Elevation. He is a well published

author on these subjects and lectures extensively both nationally and internationally. Dr. Mazor is the past president of the Israeli Periodontal Society and is an active member in the American Academy Of Periodontology (AAP), the Academy of Osseointegration (AO), and a diplomate of the International Association for Oral Implantologists (ICOI) and the European Federation of Periodontology (EFP).

Adi Lorean, DMD

Dr. Lorean completed his Maxillo-facial training at Poriya governmental Hospital in Israel and Queen Victoria Hospital at East Greenstead – England in 1997.

He currently works at Poriya Hospital and he is the medical advisor of the dental department of Laniado Hospital.

Dr. Lorean has a rich experience in minor oral surgery, implantology, bone augmentation and conducted several courses and lectures on these subjects. He

is a member of the Israelian maxillo-facial Association and involved in research and development of surgical techniques and instruments.

Main areas of interest are treatment of maxillo-facial trauma, implantology, professional consulting in biotechnology research and development.

Eitan Mijiritsky, DMD

Dr. Eitan Mijiritsky is a graduate of the Tel-aviv University School (1990) of Dental Medicine where he also completed his Postgraduate studies and Specialty with Diploma in Prosthodontics (1996).

Dr. Mijiritsky served (2002-2006) as Senior staff and Teacher at the Post-Graduate Course of Oral Implantology at the Center of Oral Implantology, Hadassa Hospital, Dental School of the Hebrew University, Jerusalem, Israel.

Visiting Professor at the Post-Graduate Course of "Clinical Implantology and Biomaterials" at the Dental School, University of Chieti, Italy. Active member and fellow in international prosthodontic and implant dentistry organizations (ICP, AO, ICOI, IAOI, DGOI, MDIS, IAFL). Diplomate of the International College of Oral Implantologists (ICOI), Founder member and Vice-President of the Mediterranean Dental Implant Society (MDIS), Founder member of the International Academy for Immediate Loading (IAFIL) and Member of the Editorial Board of the "Implant Dentistry" Journal. Dr. Mijiritsky is both a nationally and internationally active keynote lecturer in numerous seminars and meetings and author of articles related to implant dentistry.

Prof. Vojislav Lekovic

Present Positions:

Headmaster at the Clinic of periodontology and oral medicine, School of Dentistry, University of Belgrade.

Professor of Periodontology and Oral Pathology, School of Dentistry, University of Belgrade.

Visiting Associate Professor, University of California, Los Angeles.

University Services:

1985-1987 Chairman, Committee on Postdoctoral Education

1985-1987, 1987 - 1989 Associated Dean

2000-2006 Dean

2007 Head of Periodontology and Oral Pathology School of Dentistry, University of Belgrade

Research Papers and Publications: More than 350

Marius Steigmann, DMD

Dr. Marius Steigmann, Adj. Ass. Professor of oral and maxillofacial surgery Boston University.

He is an Honorary Professor of the "Carol Davila" University Bucharest. Invited Senior Guest Lecturer to the Msc. Program in Periodontologie at the Department of Periodontologie, Umc Nijmegen, The Netherlands. Lecturer at the periodontology department of "Johannes Guttenberg University

Mainz" Germany. Senior associate lecturer in the school of dentistry department of Implantology in Temeschburg.

Dr. Steigmann lectures and publishes extensively. He is senior editor of the "International Dental Tribune". Published numerous articles on implantology. Member of several associations (such as, DGOI, FIZ, BDIZ and ICOI), Continuing Education Assessor for the IAI (International Academy of Oral Implantology).

He is a Diplomate of the ICOI and other European societies Educational officer of the DGOI. He has also received the medal of "Semmelweis" Budapest University dental school dept. of oral and maxillofacial surgery. Dr. Steigmann maintains a private practice in Neckargemünd Germany, which is limited to Aesthetic and Implant Surgery.
